Literary Notices.

THE CONDITION AND FATE OF ENGLAND, by the Author of 'The Glory and Shame of England;' in two volumes. J. & H. G. Langley, 57 Chatham-street.

This book is the sequel to Mr. LESTER's 'Glory and Shame of England,' developing more fully its prominent points, and repeating the opinions therein advanced concerning the past prosperity, the Great Britain. It contains nothing new, and but little that possesses much interest. Facts have been diligently gathered and marshalod with skill: but the evident purpose has been to sustain positions to which the author had previously commitcandidly and fairly the honest truth. The whole through the United States, and, in his book, evince the same spirit of hate to our institutions and our very name, marshal figures with the same perverse intentions, and proceed so deliberately, and with such disregard of counterbalancing truths, to blacken our character and consign us to prophetic infamy, his name would awaken through the land an execrating shout whose echoes would not die for a twelvemonth. Yet who does not know that materials for such a work are most plentiful and scarcely to be overlooked? Mr. LESTER gives a single chapter only to a reply to the anonymous volume assailing his former work. It is written in a very violent passion, and contains nothing calculated to make special impression upon any one. An Appendix of half a dozen pages contains a very weak, and withal excessively abusive, attack upon Bishop DOANE, founded upon his pamphlet entitled 'Impressions of the Church of England. It displays much more partizan zeal than personal courtesy or Christian charity. The reverend author seems to have laid aside his surplice and holy vestments, and clad himself in the garb of the fish-market, for his crusade in defence of the Church. He speaks flippantly of the Bishop's 'truckling spirit,' his 'bigotry;' apostrophises him as a 'false-hearted American' --- an 'unworthy priest;' and expresses his astonishment how he could 'thus coolly record his own shame, his falsehood to his country and his puerile servility to the prelates who flattered him.' There is a sad lack of decency in all this.

The book contains many extracts from English papers and from other works: it bears upon its face the mark of having been made to sell: still there is, beyond all doubt, much in it that is true and vitally important. Matters of fact which are brought forward are deeply interesting and instructive. The style is also strong and vigorous-as was that of the 'Glory and Shame of England,'-but the work will not excite public attention to such a degree as did that upon its first appearance, for the subject is now somewhat old: nor do we believe there exists among our people any strong disposition to vilify and abuse the institutions of England, or to sympathise with those who find especial de light in the ungrateful task. They are defective enough, no doubt, but it were better to employ our in the other the term of the Ex-Senator had extime in amending our own errors than in blazoning | pired. The former Senator, I believe, resigned to

THE CAREER OF PUFFER MOPKINS: By CORNELIUS MATHEWS, Esq., Author of 'Motley Book,' &c., &c. Wilson & Co., 162 Nassau-st.

This original American Novel was' partially if not wholly published in successive numbers of 'Arcturus,' during the lifetime of that unique Monthly. It is here printed entire in a double 'Brother Jonathan,' octavo edition, in the hope that the favor so lavishly bestowed on Foreign works of its class will be extended to this, if offered at the lowest cost of type and paper, the Author's services 'thrown in,' just as a generous merchant will give you the thread or buttons if you buy the cloth for a suit. We trust the experiment may prove successful. We shall notice the book more | Loco-Foco nomination, and was classed immediparticularly hereafter.

GRAHAM'S MAGAZINE for December, 1342. Israel Post, 88

This is the closing number of Graham for the year-well filled, as its predecessors have been, with the contributions of our most popular authors in prose and verse. The leading paper is by Cooper-a biography of Richard Dale; this is follewed by papers from Brayant, Collin, Seba Smith, W. A. Jones, Miss Barrett, and other eminent writers. It contains three fine engravings. The Magazine offers a splendid list for the coming

The Boston Miscellany for December contains original articles by EDWARD EVERETT, Mrs. CLAVERS, W. A. Jones, G. H. Colton, P. K. Kilbourne, J. H. Ingraham, Charles Lanman, W. W. Story, and G. H. Hastings. It has two engravings, beside a Fashion-Plate. Mr. HALE surrenders the Editorship, and is succeeded by H. T. TUCKERMAN, a Poet of promise. The list of contributors, already good, will be improved Mr. Smith, if he is the Whig candidate, and the with this change. We have marked articles for early quotation from this number.

THE WESTERN BUSINESS DIRECTORY -Mr. J. Doggett, Jr. has just published a work thus entitled, giving the name and residence of all, as nearly as may be, of the business men, public officers, &c. in each of the twenty-one principal inland cities and villages of this State from Newburgh to Buffalo, Albany included The arrangement is very clear, a Map of the heart of the State and one of the Mussachusetts Western Railroad are given, embark in a contented manner at all. The whole and the whole sold for barely one shilling. Every expedition numbered 15 sail. Five general offibusiness man and public house, in these places and cers were among the troops, and there remained in our own City, should have a copy of this work behind in the hospitals more than 200 sick solfor reference and use. As a Directory it is of great worth; and as a means of detecting false firms and false representations respecting business, &c. it was to have been passed upon by the Mexican has no rival. The Edition consists of 10,000 co- Congress about the 4th inst. pies, which we trust will immediately find a market.

HOUSATONIC RAILROAD.—We thought this work men, where flour and provisions are permitted to was completed, and to be run through last week; be introduced. [N. O. Bulletin, Nov. 14. but we glean from a letter in the Commercial that it is opened only to Great Barrington, Mass. and that the few miles remaining will not be completed that a lad of about 18 years of age, was lost overfor two or three weeks yet. When completed, boatd from Captain Richard Coleman's vessel, in we mean to look through and take some notes-(er, the Chesapeake, a short time since. The name as Bennett would say, "send our inimitable corps of the unfortunate youth, we learn, was Bradford.

peaceable woman now-a-days. He says they are persons were drowned—one was saved by clinging Mother of McCoy and for sale at No. 26 Beekman-street, always in a bustle.

amine into the facts and to report the result of their

labors to the Common Council. We take great

pleasure in saving that this duty has been per-

formed with great care and assiduity. The report

which has just been printed by the Common

Council, shows that the gentlemen above mentioned

have devoted much time and attention to the elu-

cidation of the subject. It appears that forty-three

persons became dangerously ill, and one died in

consequence of partaking of the article alluded

to. No mineral or vegetable poison could be de-

tected by chemical analysis; but a series of ex-

periments upon animals showed most conclusively

the poisonous quality of the beef. A very inter-

esting account of the diseases of animals is also

given, embracing a history of epizootics in ancient

and modern times, with a general description of

animal poisons and their effect. In order to pre-

vent occurrences of so dangerous a character in

future, the report recommends the inspection of

all animals slaughtered for the use of the city, and

the erection of large and convenient abattoirs,

similar to those constructed in Paris. We hearti-

y approve of these projects, so important to the

sanitary police of the city, and hope ere leng to

see them carried into operation. A cheap edition

of the report should be printed for more general

CUBA .- According to an official account pub-

lished in a Havana newspaper of the 20th Sept.

Whites ..... 418,291 Free mulatoes . 85,054

Free negroes. 64,784 Mulatto slaves. 10,974

In 1827, the population of the island was 704-

This increase is not far from the proportion in

which our own country has increased. On an av-

erage of the several rates for each period of ten

years, since 1750, it is found that the inhabitants

of the United States have increased about thirty-

There is a material difference, however, between

Cuba and the United States in the relations of the

increase of slaves and free persons. During the

ten years preceding 1840, the increase of slaves

in the United States was 23, 8 per cent .- of

free persons 27, 7. In Cuba, for the fifteen

years above named, the increase of free persons

From 1790 to 1840, the average decennial in-

crease of free persons in the United States was 41

per cent.-of slaves 29 per cent. This difference

petween our own country and Cuba, one of the

most remarkable slave-holding communities in the

world, may have been owing we hope to the fact

-in part at least-that the United States at an

early period prohibited the importation of slaves,

while the trade has been kept up in Cuba, to a

Indiana-Special Elections-Chance for U. S. Senator-Politics of the State &c.

Correspondence of The Editor. NORTH BEND, St. Joseph Co., Ia, Nov. 11, 1842. My Dear Sir: The Election in Allen County was on the 7th inst. Dr. L. G. Thompson was the Whig, and Mr. Nelson, an Ex-Editor, the Loco-Foco candidate. The result is that all the townships have been heard from but two, and Dr. Thompson is 166 votes ahead of his opponent -The remaining part of the County cannot change present misery and the approaching downfall of the result either way 20 votes. This is a great triumph, for it was distinctly understood by both parties there that it was to be a test vote. Botin did their best. The most desperate exertions were made by the Locos to defeat the Whig candidate, but all to no avail. Allen County, as I wrote you ted himself, rather than to ascertain and present | in my last, is Whig on a fair vote, and she has shown it handsomely just now. The Loco-Foco work is written in the same spirit, and seeks solely majority there in August was 82, which makes a the same general end. Should any foreigner travel | Whig gain now, as compared with then, of 243 votes in one County! You see what a heavy reserve the Whigs of Indiana have besides the tie vote given at the August election. If, with dissension running riot through their ranks and a general lethargy and laxity pervading the whole Whig army, they can tie their opponents, well drilled, mited, and disciplined as they are, what think you they will do when next year they have a full ticket ta fight for, and a full Whig vote is drawn out. In August we lost one Representative in Porter and Lake by 4 votes, Floyd by 9, and two n Marion by 20, in each of which, if one-tenth of the stay-at-home Whigs had veted they would have secured the election. Thus 40 votes polled in 3 Counties, where 3 or 400 Whigs neglected the first duty of patriotism, would now have insured the Whigs of Indiana 10 majority on joint-

The result of the election in Allen gives the Whigs two majority on joint-ballot, and I think settles the election of United States Senator, if the Whigs do not choose to be cheated out of it. The Loco-Focos, however, claim two majority of Howard men. Time alone will show which party obtains the Senator. In Steuben and Dekalb you re aware a contest is pending. The election reulted in a tie vote. The Sheriffs, according to our statute, met and cast lots which candidate should have the commission. The Whig, Mr. Beall, was successful. Dr. Marsh, his opponent, contests because one vote cast for him was rejected. His opponent replies that the vote rejected was a ballot cut into four pieces, and the statute expressly states that any ballot composed of more than one piece of paper shall be rejected and treated as a sullity. But to render the matter certain, Mr. Beall has taken testimony and proved six ille val votes to have been given his Loco-Foco opponent. this condition the matter will go before the House, which, you know, is Loco-Foco by 10 majority. I entertain no doubt at all that Mr.

Beall's title to his seat will be confirmed. There is also, as you correctly state in your Whig Almanac, a disputed seat in the Senate, in the Pozey and Vandenburgh District. As far as I have been able to ascertain, the facts in this case are as follows: The District at the Apportionment of 40-41 was formed out of part of what had previously been two Districts. In one of them one of the Senators had a year remaining to serve; put no difficulty in the way of the new Senator. who was to be elected, taking his seat for the full term. Mr. Pitcher was consequently elected, and was considered by all as the Senator for three years. Last summer, however, some Loco-Focos thought they had found a mare's nest there, and, pretending that they believed Mr. Pitcher's term of office had expired, put up a Mr. Casey. which nomination being looked upon as a perfect humbug by all the Whigs and a large number of the Loces, he received about 300 votes in the two Counties, and thereupon claims his seat; which modest request, ou can readily imagine, is in no danger of being

omplied with. Mr. Tevis of Shelby, claimed as a Whig, is also orrectly set down by you as ' claimed by both paries.' He was elected in opposition to the regular ately by the State Sentinel as 'a Howard Whig.' Mr. Hackleman, the intelligent Editor of the Rushville Whig, declares that Mr. T. will not vote for Gen. Howard, but will go for the Whig candidate for Senator, and this opinion coincides with the general one of his constituents.

Mr. Carter of Cass is a Loco-Foco. Cass is a strong Whig County, and he pledged himself voluntarily on the stump to vote for the Whig candidate for Senator if instructed so to do by a maority of his constituents. Instructions to that effect vere sometime since circulated through his County for signatures, and I understood that more than a majority had signed them. If, however, they have not yet, they will, without doubt, before the meeting of the Legislature. Mr. Certer is an honorable man, much esteemed, and will stick to his

Mr. Hoover of Wayne is a Senator-a Loco-Foco ene elected last year. His County is Whig by 1600 majority, and he was elected by a split in the Whig ranks. He rode in on some sort of Whig pledges, for so he avowed last winter, but the paricular kind I cannot exactly find out. The prevailing opinion is that he will certainly vote for chances are about even that he will vote for any other Whig who may be the candidate of the party Taking every thing on a general average, the Whig chance I consider far, far better than the Loco-Focos. Sincerely your friend, s c.

FROM MEXICO.-We have advices through the Havana gazettes to the 29th ult. A correspondent writes that the expedition which sailed for Yucatan consisted of 9 sail of pressed merchant vessels, conveying 3,000 men and 900 women, which last named part of the force the writer thinks quite notable, inasmuch as the men did not diers. It was believed that the Campechanos were determined to repel this force with force. The third project for amending the Constitution

WONDERFUL EFFECTS OF SANDS'S SARSAPA-

RILLA IN NORWICH.
Read the following from Mrs. Wm. Phillips, who has one resided at the Falls. The facts are well known to all long residents in that part of the city.

Messas, A. B. Sands & Co., Sirs: Most gratefully do I embrace this opportunity for stating to you the great relief I obtained from the use of your Sarsaparilla. I shall also be happy, through you, to publish to all who are afflicted, is I lately was, the account of my unexpected, and even or a long while despaired of cure. Mine is a painful story,

and trying and sickening as is the narrative of it, for th sake of many who may be so surely relieved, I will briefly yet accurately state it. Nineteen years ago last April a fit of sickness left me with

an Erysipelas eruption. Dropsical collections immediately took place over the entire surface of my body, causing such an enlargement that it was necessary to add a half yard to the size of my dresses around the waist. Next followed, upon my limbs, ulcers, painful beyond description. For years, both in summer and winter, the only miltigation of water. From my limbs the pain extended over my whole body. There was literally for me no rest, by day or by night. Upon lying down these pains would shoot through my system, and compet me arise, and, for hours together, walk the house, so that I was almost entirely deprived of walk the house, so that I was almost entirely deprived of sleep. During this time the Erysipelas continued active, and the ulcers enlarged, and so deeply have these eaten, that for two and a half years they have been subject to bleeding. During these almost twenty years I have consulted many physicians. These have called my disease as it was attended with an obstinate cough, and a steady and active pain in my side—a dropsical consumption; and though they have been skilful practitioners, they were only able to afford my case a partial and temporary reliet. I had canny other difficulties too complicated to describe. I have also used many of the mediciness that have been I had reany other difficulties too complicated to describe, have also used many of the mediciness that have been recommended as intallible cures for this disease, yet these all failed, and I was most emphatically growing worse. In this critical condition, given up by friends, and expecting, for myself, relief only in death, I was by the timely interposition of a kind Providence, furnished with your, to me, invaluable Sarsaparilla. A single bottle gave me an assurance of health, which for twenty years I had not once felt. Upon taking the second, my enlargement diminished, and in twelve days from the 5th October, when I commenced taking your Sarsapariila, I was able to enjoy sleep andrest, by night, as refreshing as any I ever en-joyed when in perfect health. Besides, I was, in this short time, relieved from all those excrutiating and unalleviated pains that had afflicted my days, as well as robbed me of my night's repose. The ulcers upon my limbs are healed, the Erysipelas cured, and my size reduced nearly to my

former measure.

Thus much do I feel it a privilege to testify to the efficacy of your health-restoring Sarsaparilla. A thousand thanks, sirs, from one whose comfort and whose hope of future health are due, under God, to your instrumentality. And may the same Providence that directed me to your health are the providence that directed me to your instruments of bless.

And may the same Providence that directed me to your aid, make you the happy and honored instruments of blessing others, as diseased and despaning as your much relieved and very grateful friend.

ASENATH M. PHILLIPS.

New London, Co. ss, Norwich, Nov. 4, 1342.

Personally appeared, the above-aamed Asenath M. Phillips, and made oath to the facts contained in the foregoing statement before me.

RUFUS W. MATHE WSON,

Junice of the Penge Justice of the Peace Being personally acquainted with Mrs. Phillips, I certify

that the above asserted facts are substitutedly true.

WM. H. RIGHABDS,

Minister of the Gospel at Norwich, Conn.

L. Another proof of the superior value and efficiency of
this preparation.

NEW-YORK, Oct. 19, 1842.

MESSES. SANDS—GENTLEMEN: If you alone were concerned in the present statement, the great inducement for making it would be removed: for of course no testimony can strengthen your own convictions in relation to the value and efficiency of your Sarsaparilla, which has already proved such a blessing to the many hundreds who have used it. But I have looked upon the world encircling in its arms thousands bowed down with sufferings similar to my own, who would gladly hasten to the same source that restored my health, it they were persuaded they would restored my health, it they were persuaded they would meet with the same happy results. Therefore, gentlemen, it is that those thousands may be convinced, and profit by their conviction as I have done, that induces me to state be, fore the world a period of suffering such as few have known, and the permanent relief I received from your Sarsaparilla. But how shall I begin, or how describe those extraciating as in the mouth of June, 1849, I was first attacked with theu-matism, chused, I have reason to believe, by a severe cold contracted while nursing one of my children, who was then

My suffering soon became intense, everywhere I seemed issensed. For five months I was unable to walk, and ix weeks did not lie upon a bed, but was obliged to rem in a sitting posture, that being less agonizing than any other. My whole body was so sore and racked with pain that the slightest touch caused inexpressible distress. For a period of many months I did not sleep but two nights, and the only rest I obtained was during the day, when nature became exhausted and I fell into a siumber, from which I was soon awakened by the beating and throbbing pain. My limbs were swollen and my shoulders drawn out of place, and altogether I was rendered entirely helpless. I obtained the best medical advice, but without receiving any permanent relief. The rheumatism being combined with a swell-ing and painful affection of the joints, rendered it still warse. Tumors formed under the skin, round my bead, which caused burning and lanciating pains similar to scrotnia of glands.

the glands.

My groans at night caused the watchman to stop in the street as he passed by; and when many of my friends residing in Poughkeepsie last visited me, they bid me farewell, as they then thought for ever; and once the family asmbled in the room to watch the last spark of life go out But the flame of life again glared up within my; and soon after this I heard of your Sarsuparilla, and determined to try it; and behold the result. After taking one bottle the pain left me, and I was able to walk and steep. I could scarcely realize the transition—so sudden so complete. Af-ter using four or five bottles, I was entirely cured. And are you alone, gentlemen, concerned to know it? I think not; and this language is too mild for the occasion. For I know that the medicine that possesses the power to cure me is capable of conferring the same blessing upon thousands of others suffering—perhaps dying; therefore, these are all concerned to know that they can be cured. In fact, all are concerned in the discovery of anything that tends to pro-mote the happiness of the human race; for we are social beings, and cannot suffer alone. Persons may doubt this statement if they will, and go on and suffer and die, I have discharged a duty which I felt incumbent upon me in making it known for the benefit of those who choose to believe it. And when I look into the past—upon those solitary days and sleepless nights—I thank God that I am as I am. And I thank you, gentiemen, that you have made science minister unto our infirmities, and I, for one, will proclaim the Respectfully,
